Buenos Aires, Argentina & Remote • Résumé current as of March 4, 2019

Skills

Fundamentals	Data structures and algorithms, OOP, TDD, SOLID
Programming languages	C#, JavaScript, HTML/CSS, PowerShell
Frameworks	.NET Framework, Node.JS
Platforms	AWS API Gateway and Lambda (Serverless), Azure Service Bus, IIS
Databases	AWS ElastiCache (Redis) and DynamoDB, SQL Server
Tools	Git, TFS, Sumo Logic, AppDynamics, AWS/Verizon Edgecast WAF

Employment

sovanta AG, Software Engineer	02/2019 - Present
- Working on the development of the company's own products, coding in JavaScript mainly, focused on backend (Node.js).	
Accenture, Software Developer - Associate Manager	12/2018 - 02/2019
Accenture, Software Developer - Specialist	10/2015 - 12/2018
<ul style="list-style-type: none">• Neutralized SQLi and XSS real attacks by contributing to the implementation of a Web Application Firewall for the CIO SAP landscape, involving Verizon Edgecast CDN and AWS WAF services, 40+ Internet facing URLs and 10+ application teams.• Rewrote in Node.JS/JavaScript a critical .NET/C# backend service, and migrated it from IaaS to an AWS Lambda based PaaS, without interrupting operations.• Integrated SAP IdM and Microsoft Dynamics by developing a custom interface using Rhino/JavaScript and OData when SAP did not offer a connector out-of-the-box.• Improved the performance of a webapp by implementing ElastiCache and ASP.NET tweaks, leading to a 60% reduction in page load times and a decrease in backend workloads.• Developed SAP Gateway OData services using ABAP to go-live in less than four months, without any prior ABAP experience.• Integrated Salesforce and SAP Finance by leveraging Azure Service Bus and developing an NServiceBus endpoint that handles 12K messages every day.	
Grupo Santillana, Software Development Team Lead	08/2009 - 10/2015
<ul style="list-style-type: none">- Led the group of developers who built a BPM solution to digitize critical business processes of the publishing group.- Contributed to the implementation of the Scrum agile framework, playing the role of ScrumMaster.- Guided the adoption of software engineering practices such as TDD and Continuous Integration.	
CDA Informática - Client: Telecom, Software Developer	02/2009 - 08/2009
- Contributed to the development of a product for fault detection and traffic analysis of the Telco's networks.	

Academics

Universidad Tecnológica Nacional, Systems Engineering	Graduated on 07/2015
<ul style="list-style-type: none">- As the final project of my 5-year degree, developed an Android application that brings together story telling for kids and voice recognition.- Elective courses I attended, which define my interests: Implementation of NoSQL databases, Architecture of IT projects, Advanced technologies for building software and Advanced programming techniques.
